Devyani Ghildiyal

Delhi devyanighildiyal07@gmail.com +91 9899875811 devyani-ghildiyal devyanighildiyal

Education

Manipal University Jaipur Sept 2022 – July 2026
Bachelor of Technology in Computer Science and Engineering
Coursework: DSA, DBMS, Operating Systems, Computer Networks

Delhi Public School RK Puram April 2019 – July 2022
Secondary and Higher Secondary Education

Work Experience

Data Analyst Intern Pune, Maharashtra
Powercon May 2025 – July 2025

- Analyzed SCADA data and DLB reports to compute turbine KPIs (PLF, MTTR, MTBF) and automated fault-tracking dashboards using Python and Power BI, reducing manual reporting effort by 40%.
- Contributed to an AI-powered operator chatbot integrating NLP with SCADA signals, improving real-time monitoring and accelerating fault-resolution workflows.

Technical Projects

Cyber Shield *github*

- Built a cybersecurity web extension leveraging machine learning techniques to detect unsafe patterns and enhance user protection.

Deepfake Detection System *github*
Received a Letter of Recommendation for outstanding technical contributions.

- Built deepfake-detection models including XceptionNet achieving 92% top-1 accuracy and a custom Hybrid CNN-LSTM-Attention model (88%) on the Celeb-DF dataset.
- Designed full training/evaluation pipelines and integrated inference into a scalable web app.

Industrial Surface Defect Detection(Research Paper in Progress) *github*

- Developed and evaluated deep learning models (ResNet18, MobileNetV2, MobileViT, Swin-Tiny) for industrial surface defect detection using PyTorch, achieving up to 98-100% accuracy and 82–276 FPS through transfer learning, cosine annealing scheduling, and stratified data pipelines.
- Designed DualPath-AFNet, a lightweight hybrid CNN-Transformer architecture(3.58M parameters) with adaptive feature fusion, achieving 89.26% accuracy at 131 FPS while enabling per-class defect analysis for real-time industrial inspection.

Leadership Experience

Vice President(former head of events) Jaipur, Rajasthan
Randomize(); Manipal University Jaipur May 2023 – May 2025
Received a Letter of Recommendation for contributions to Randomize.

- Lead tech initiatives and community growth for the university's official computing club.
- Organized workshops and hackathons, increasing member engagement by 94%(from 180 to 350 members)

Skills

Languages: Java, Python,SQL, HTML, CSS, JavaScript
Backend and Databases: REST APIs, Microservices, OOP, MySQL, MongoDB, Redis
Tools: Git, AWS, Power BI, REST APIs, Web Services

Accomplishments

- Secured 2nd place at Hack-O-Mania, IIT Ropar's annual hackathon, among 150+ competing teams
- Received Student Excellence Award from Manipal University Jaipur.
- Academic Excellence Award, Awarded by Delhi Public School RK Puram

Certifications

- **Oracle Academy** – Database Foundations, Database Programming with SQL, Java Foundations
- **Juniper Networks** – Mist AI, Associate (JNCIA-MistAI)
